Fire, Building & Life Safety Division				
Fire Protection Submittal for Plans with Revisons		PAGE	1 of 1	Revised: 5/13/2008
Category: Plan review	Code Reference: 2006 IFC Section 105.4			

## **PURPOSE**

The purpose of this regulation is to document the requirements for the submittal of revisions to previously approved fire protection plans, including, but not limited to; fire sprinkler, fire alarm, and hood suppression systems and to provide an efficient and thorough plan review process.

## REGULATION

## **SUBMITTAL REQUIREMENTS:**

One copy of the original permit.
One copy of the original approved fire protection plans with City of Goodyear Approved Fire Department Stamp affixed.
Completed permit application with a brief description of plan revision.
Narrative that clearly specifies all plan revisions to be reviewed.
Two complete sets of revised plan sheets with all revisions "clouded"

- Plans shall be sealed by an Arizona Professional Engineer when required per the Arizona Board of Technical Registration\*.
- Plans not requiring an Engineer's seal shall have a dated review certification and signature of a minimum Level III NICET Certified Engineering Technician (CET).

\*Per Arizona Board of Technical requirements for Fire sprinkler design. Visit the BTR website www.btr.state.az.us for specific requirements
